## Working with a Private Investigator

Many people have a stereotypical belief about Private Investigators perpetuated by popular media. However, most of it cannot be further from the truth. The Private Investigator or Private Investigation Firm you hire must be **skilled**, **creative** and **persistent** to resolve your case.

Just because an investigator had previous law enforcement experience does not always qualify them as the best investigator for the job. Many of these types of private investigators can tell you many "war stories" and produce no results. At Brewer Detective, we screen all our investigators to be the **very best**, in the area requested by our clients.

We are dedicated to personal attention, individual commitment and the most cost-effective service. We guarantee that all of our investigations will be conducted discreetly and professionally. For your convenience you can contact our corporate office and talk directly with a private investigator 24 hours a day, 7 days a week.

## **SURVEILLANCE**

**Activities documented in a confidential manner  
with state-of-the-art equipment**

**Brewer Detective** utilizes passenger cars, sport utility vehicles, vans, trucks, stationary vehicles, and roadwork vehicles. We have a vehicle for every situation. For those surveillance situations when a vehicle will not work, we have surveillance specialists with expertise in on-foot surveillance and long-range surveillance. These specialists have climbed into hollowed-out trees, crept through poison oak, crawled through deer trails, climbed mountains, ridden bicycles, skateboards, skates, scooters, boats, all-terrain vehicles and motorcycles. We have jogged, walked dogs, sold items door-to-door and used many other creative techniques. Most importantly, *we never trespass or break any harassment or anti-stalking laws while doing so.*

To date, our firm has conducted over 50,000 investigations.

We currently employ highly trained investigators that have been employed by our company on average of fifteen years, some much longer.

All of our reports contain photographs taken from the actual video depicting highlights of the investigation. This allows you to see the activities captured on video without having to actually view the video. Identifying photos of the subject and the subject's residence are also included.

Our Experience is your **EDGE**

## Photography - Videography

As with any investigative company, our mainstay is our ability to obtain the photographic and video evidence our clients need.

From low-light to no-light, from micro-size concealed cameras to long-distance lenses that can 'see' up to a half-mile away, we are able to get the shots that very few others could.

Once we have obtained the video, we can provide you with print-quality stills and a complete copy of our video on your choice of formats: DVD or CD-ROM, or other digital media.

## INSURANCE

### Expert Investigators for Liability, Workman's Compensation and Disability Claims

At Brewer Detective, we are entering our forty-first year as an industry leader in the area of insurance claims investigations.

Whether it's Workers' Compensation, automotive, personal injury or virtually any other type of insurance claim, our investigators average a staggering 90% success rate in obtaining the evidence you need to make an informed decision whether to approve or deny the claim, as well as prosecute for possible fraud.

With current economic stressors such as job instability, housing, gasoline prices and the state of the economy, fraudulent insurance claims are expected to rise as more people struggle to find a way to supplement their income. Some attempt to 'cash in' on incidents in their personal lives that have little or nothing to do with their claim.

While everyone is familiar with the results that mobile surveillance can produce for claims investigations, background investigations have long been an effective weapon in determining what's really going on with claimants. Everyone has a history, and with a Brewer Investigations Background Check, you'll get the vital information that will not show up on camera.

This worker was collecting total disability payments from one employer while working full-time for another.

### In recent months, we have seen:

- A delivery driver who claimed a back injury made her work physically impossible. Our investigation found that she had been charged with Driving Under the Influence several days before her alleged, 'work-related' injury.
- We found a young man who claimed total incapacitation due to a work-related injury; attending classes full-time at a trade school. He was expecting Workers' Comp to foot the bill for his education.
- An employee who claimed his job was causing psychological stress when he was actually in the middle of a bitter divorce and custody battle.

These are just a few examples of the thousands of claims we investigate each year. Information is your best weapon against fraudulent claims and we will do everything we can to get the evidence you need.

## Pre-Employment Background Checks

Whether you're the owner of a small, independent business or the CEO of a Fortune 500 company, your success depends heavily upon the people you employ.

Anyone can throw together a great-looking resume', and Internet diploma mills can provide authentic-looking credentials to anyone with a few dollars and a little creativity. Likewise, any prospective employee can keep themselves together for a good interview.

Statistically, problem employees only start showing their true colors once they've left their probationary periods and as we are all too aware, getting rid of troublesome workers can be a perilous and expensive endeavor. Wouldn't it be better to know the problems before they go on your payroll?

It is for these reasons that more and more employers are utilizing Pre-Employment Background Checks for their applicants.

Our Pre-Employment packages will typically include:

- Bankruptcy Search (assets are listed)
- Board of Equalization
- Business Affiliations
- Consumer Affairs
- Corporations
- Credit Profile
- DMV Record
- Employment
- Education
- Judgments - Small Claims and Upper Civil Court

- Professional Licenses

\*Please note that we will need an applicant's completed Information Release prior to beginning our investigation.
